pro.mbsm.pro, Compressor, Secop, GTK80AT, 232W, R134, LBP, 1/3 hp, RSIR, 791 BTU

The GTK80AT is a hermetically sealed reciprocating refrigeration compressor manufactured by Secop (formerly Danfoss). It uses the refrigerant R134a and has a cooling capacity of 232W (ASHRAE) or 171W (CECOMAF). It is commonly used in small refrigerators, freezers, and ice makers.

GTK80AT compressor

Here are some of the key features of the GTK80AT:

- High efficiency: The GTK80AT is designed for low energy consumption.
- Reliable: The compressor is built to last and is backed by a long warranty.
- Quiet operation: The GTK80AT operates at a low noise level.
- Compact size: The compressor is small and lightweight, making it ideal for use in space-constrained applications.

The GTK80AT, manufactured by Secop (formerly Danfoss), is a hermetically sealed reciprocating refrigeration compressor that uses the refrigerant R134a. Its horsepower (hp) rating is **1/4+ HP**, which is equivalent to **approximately 0.18 kW**.

Here's a table summarizing the key specifications of the GTK80AT compressor:

Specification	Value
Horsepower (HP)	1/4+(1/3)
kW	0.18
Cooling capacity (ASHRAE)	232 W
Cooling capacity (CECOMAF)	171 W
Refrigerant	R134a
Voltage	220-240 V
Frequency	50/60 Hz
